March 2017

Dear Parents / Guardians,

We are very interested in the perspective of our families as an important part of our planning. Our family/school relationship and partnership is central to our students' success.

We will be providing our families with a link to *The Family Engagement Survey*. This will be posted on our website. The survey will be open until April 7, 2017. It is very easy to complete. Just click on the link and enter the password which is **Family2017**. The survey has 50 questions which are rated on a five part scale. Also, there are three open questions for our families to offer comments. All survey responses are anonymous; respondents are not identified.

Additionally, as part of this process, our staff and students will be completing surveys. This will allow us to have a comprehensive data base important for our planning.

We appreciate your assistance in completing this important survey. If there are questions or need for clarifications, please contact me at the number above. Parents are such an important part of what we do and we are grateful for our families taking the time to respond. It is important for our schools. We look forward to your input.

Thank you.

Sincerely,  
Deborah Biastre
